## **Analysis**

The analysis of the feedback indicates satisfactory response in certain parameters whereas others show ample scope for development and progress. The feedback of students on parameters related to teaching and learning like preparedness of teachers for the class, fairness of the evaluation process, response to students queries, awareness about outcome of the course among students, completion of syllabus, communication skill of teachers has elicited a positive response. However response for other parameters like student centric learning, use of various tools like ICT or LMS, inculcation of skills exhibits the need for immense growth. There is urgent need of introducing new subjects which may help in developing more and more soft skills, life skills and skills of employability. The response for the library facility is relatively poor. Students response for extracurricular activity, infrastructure, sports facility, first aid facility indicates that these facilities are not satisfactory.

## **Action taken**

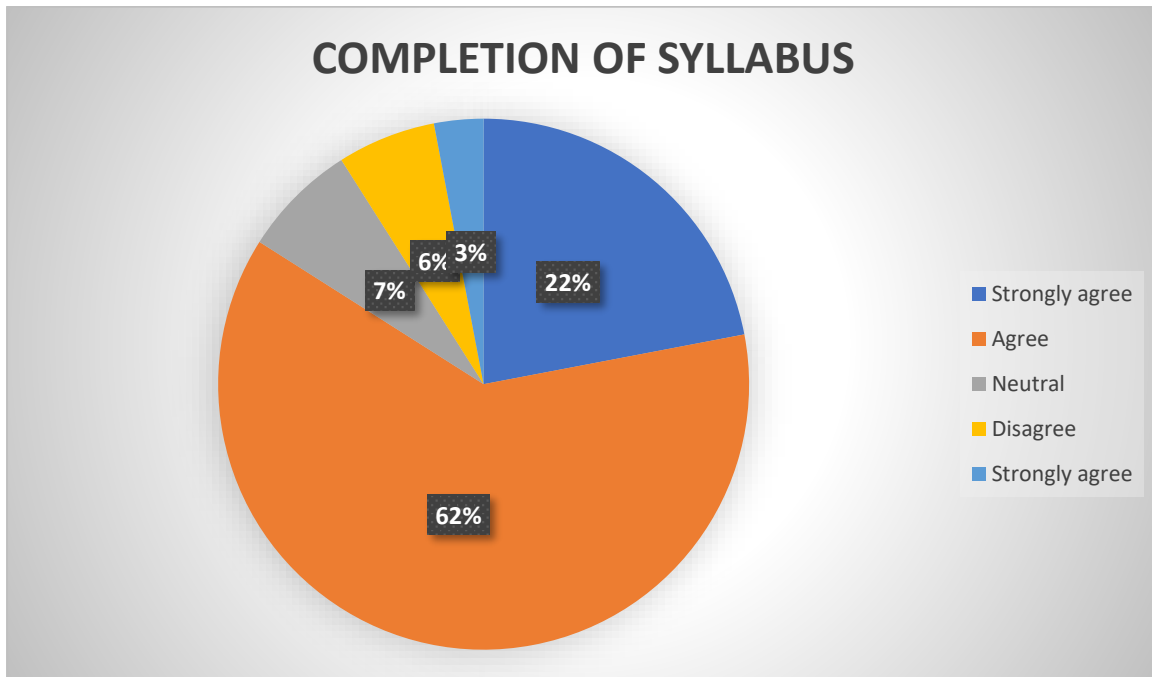

- 1) Allotment of funds for buying books in the library and necessary upgradation.
- 2) The survey clearly reflects that new subjects are needed to be introduced. The process for the same is initiated.
- 3) All the committees are requested to submit requisition in terms of infrastructure augmentation in the college. The necessity to install water filters in the college premises keeping in mind the increasing strength of students was conveyed to the authority.
- 4) Decision to upgrade first aid facility in the college is taken
- 5) Necessary initiatives are taken to introduce new subjects so that college may provide placement and internship facilities to our students.
